Public Respository for Web Application Programming and Hacking course -
Dr. Phu Phung

WAPH-Web Application Programming and Hacking

Instructor: Dr. Phu Phung

Student

Name: Nick Fishman

Email: fishmane@mail.uc.edu

Short-bio: Nick Fishman is an electrical engineering student with a specific interest in hardware and circuits.

Repository Information

Repository's URL: <https://github.com/NickFishman04/waph.git>

This is a private repository for Nick Fishman to store all code from the course.
The organization of this repository is as follows.

Hackathon 1

Task 1. Attacks: (35 pts) 7 level of reflected cross-site scripting attacks on <https://waph-hackathon.eastus.cloudapp.azure.com/xssLinks> to an external site.

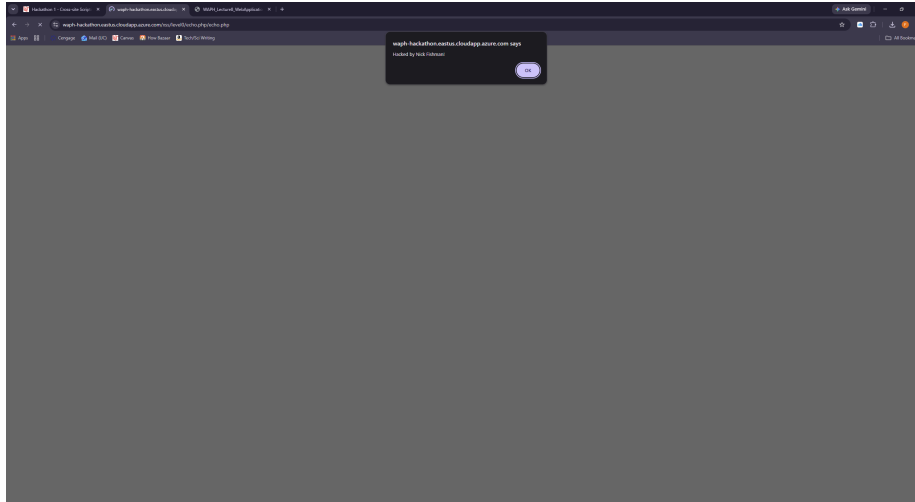

Figure 2: Level 0

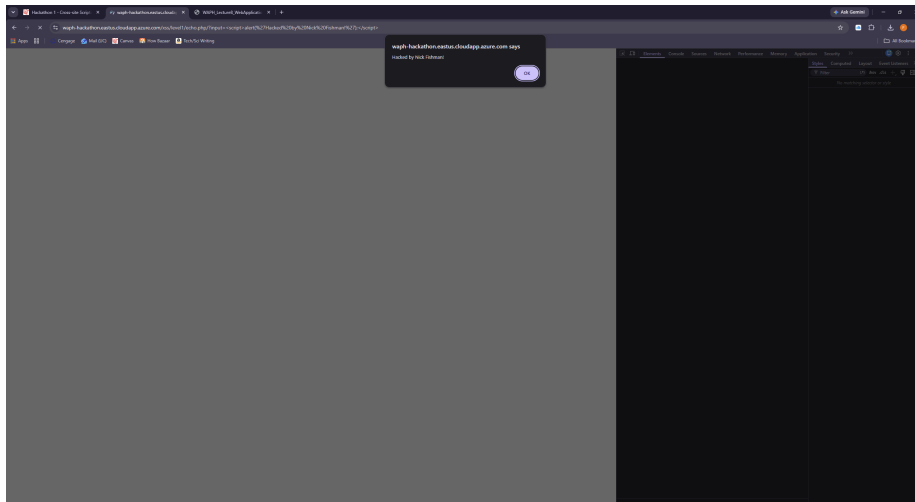

Figure 3: Level 1

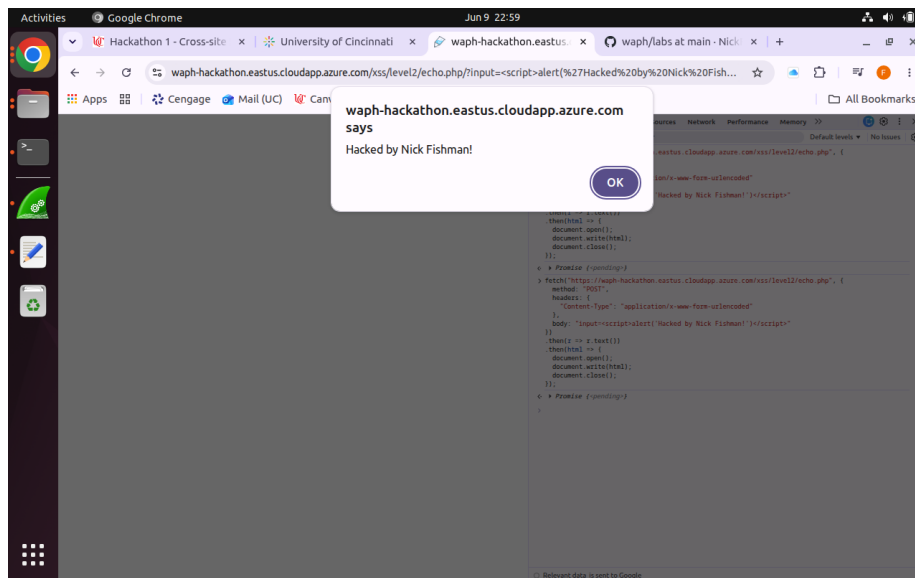

Figure 4: Level 2

Code guess (lvl2):

Code guess (lvl3):

```
{,
```

```
},", $input ); echo $input; ?>
```

Code guess (lvl4):

```
{,
```

```
},", $input ); echo $input; ?>
```

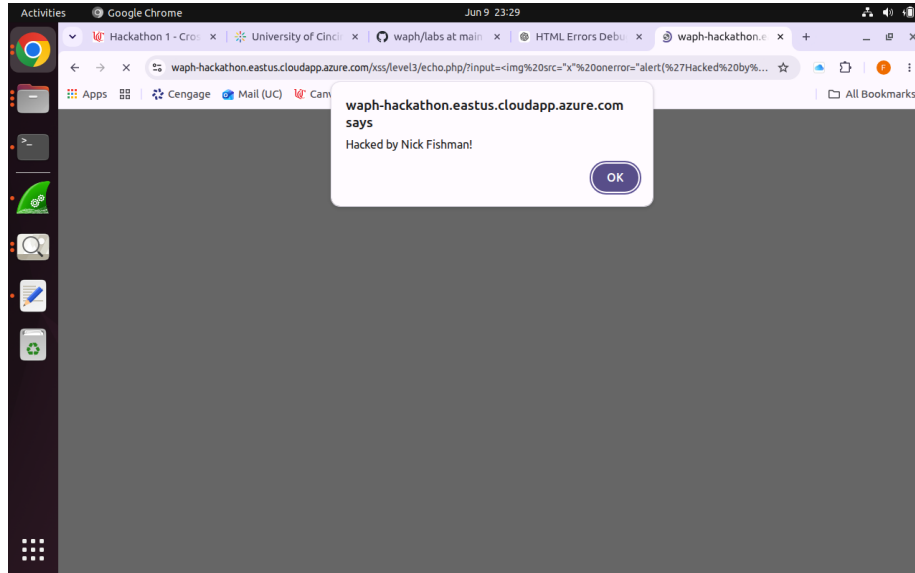

Figure 5: Level 3

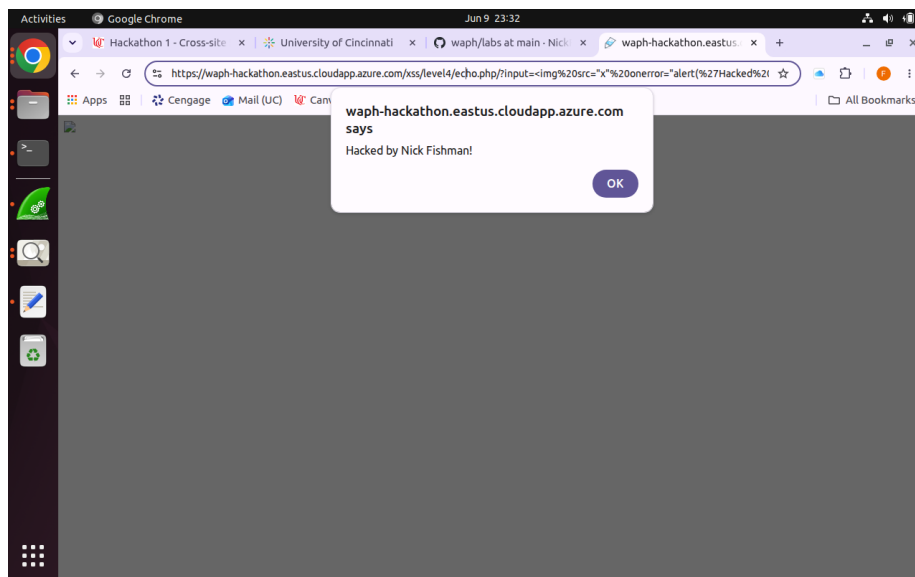

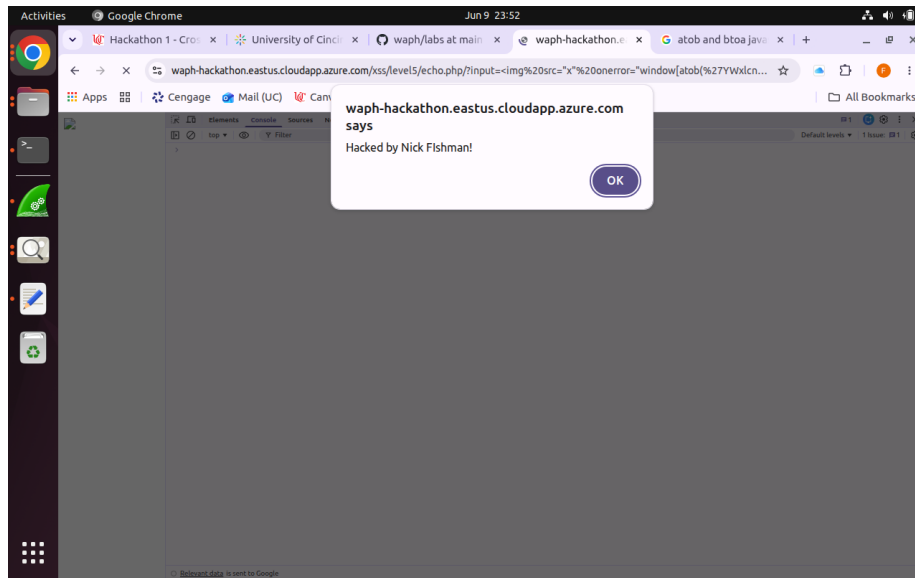

Figure 6: Level 4

(converted “alert” to binary and back to ascii to get around filter) Code guess (lvl5):

```
]*>/i', ', $input); $input = str_ireplace('alert', '', $input); if (stripos(input, 'alert') !== false) { echo json_encode(["error" => "No 'alert' is allowed!"]); exit; }
```

```
echo $input; ?>
```

Code guess (lvl6):

Task 2. Defenses: (15 pts) Review your code and implement input validation and XSS defense methods

Used AI to clean up/debug code.

```
]*>/i', ', $input); $input = str_ireplace('alert', '', $input);
```

```
if (stripos($input, 'alert') !== false) { echo json_encode(["error" => "No 'alert' is allowed!"]); exit; }
```

```
echo $input;
```

```
?>
```

Labs

Hands-on exercises in lectures

- Lab 0: Development Environment Setup
- Lab 1: Foundations of the Web
- Lab 2: Front-end Web Development

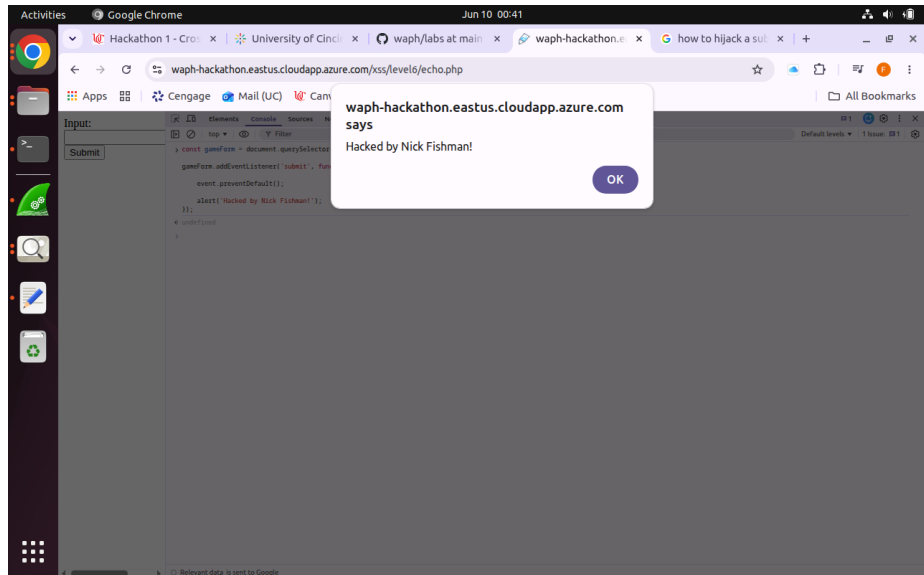

Figure 7: Level 6

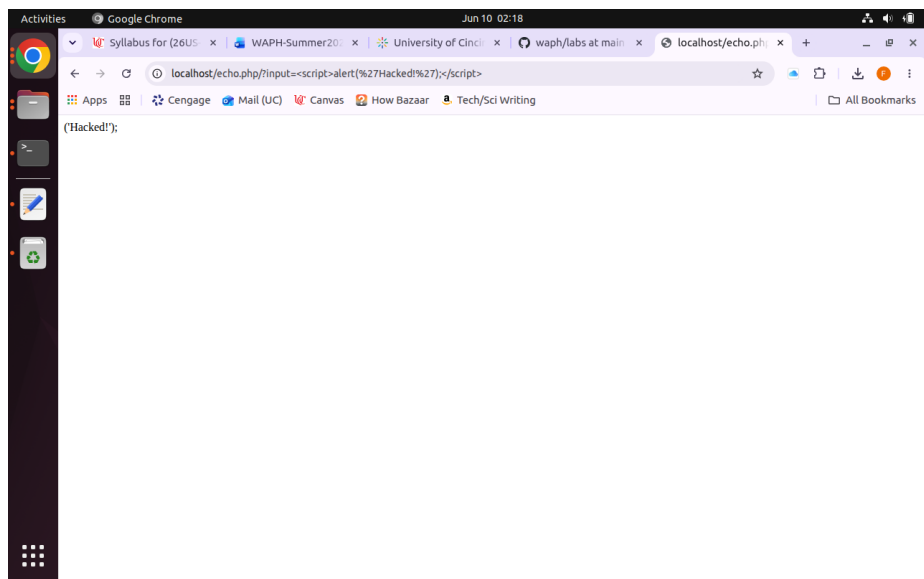

Figure 8: Defended Website

Hackathons

- Hackathon 1: Cross-site Scripting Attacks and Defenses

Individual Projects

Team Project
